Oberammergau Museum

(IM)MATERIAL– fabrics, body and passion
A building and room installation for the Passion Play
2022, May 1st to November 1st, 2022

The Oberammergau Museum is one of the oldest and most beautiful cultural history museums in Bavaria. A part of the museum will be rebuilt with the laminated folk costumes of the Passion Plays 2000 and 2010. The interior, which is thus covered, will become a space for experience and reflection. A large part of the small sculptures in the collection from the 17th, 18th and 19th centuries depict the birth, life, suffering, death and resurrection of Christ. Through veiling, alienation and light projections, the view is directed to individual exhibits. The path begins in the nativity scenes department, leads through the historical rooms, which were furnished in 1910, and ends in a large room installation. The visitor enters and leaves the alienated area again and again. The museum becomes a place of reflection on one's own imprints, fears, ideas and the question of redemption. Finally, each visitor receives a small piece of fabric from the former costumes of the people of Jerusalem as a symbol of (im)material exchange and community between people.
